Animal Origin Free Statement: FA 326 (HFIP)

Additive Manufacturing Technologies Ltd confirms that FA 326 (HFIP) is animal-origin-free, based on information provided by our supplier.

- FA 326 (HFIP) is a single-substance product: 1,1,1,3,3,3-hexafluoropropan-2-ol, CAS No. 920-66-1, EC No. 213-059-4.
- The HFIP is not manufactured from any animal-derived constituent, and the manufacturing process uses no equipment in direct or indirect contact with animal tissues.
- No animal-derived materials are intentionally added at any stage of AMT's own handling, packaging or supply of FA 326.

DISCLAIMER

This statement applies to FA 326 (HFIP) as supplied by Additive Manufacturing Technologies Ltd. It does not extend to packaging, machine components, or any other material the solvent may contact, nor to parts processed using it, and it is not independent laboratory verification. Customers remain responsible for confirming compliance in their own use cases and jurisdictions.

Signed for and on behalf of Additive Manufacturing Technologies Ltd:

Dr Konstantin Rybalcenko
